

Cape Town Combined ENT & Anaesthetic Airway Course

Dear Specialist Colleagues,

You are invited to the 1st Combined ENT & Anaesthetic Collaborative Airway Course

- This course is the first of its kind anywhere in the world.
- It will enable you to identify key problems in a shared airway that typically involves ENT, Anaesthesia and other disciplines, through a stepwise approach.
- Adult & paediatric spectrum of ENT / shared airway practice in the operating room is covered.
- The course is aimed at senior ENT & Anaesthetic registrars, junior consultants, or any specialist who wants to improve or update their airway experience.
- This is a full day program comprising of lectures from experienced faculty & integrated simulated scenarios with cadavers.

Date: Friday 28th April 2017

Time: 8am - 5pm

**Venue: Anatomy Building, FHS, Anzio Rd,
Observatory, Cape Town**

1 day before the ENT Masterclass®

The cost is R2500.00. To enroll, email Farhana.Hassan@uct.ac.za with your details, & a brief motivation. Spaces are limited, so apply now. Lunch & Coffee will be provided. Please provide meal preferences, if any. This course is accredited and run in association with the College of Medicine of South Africa (CMSA).

Join a Multidisciplinary team of Airway experts to increase your knowledge and improve your skills when faced with any challenging upper airway case.

At the end of the course, we expect that you will feel more prepared and comfortable in the operating room when faced with a difficult upper airway, and that your communication with other airway experts, will be greatly improved.

Course organisers,

Dr. Shazia Peer
Specialist ENT Surgeon

Dr. Ross Hofmeyr
Specialist Anaesthesiologist

For more information, email Shazia.Peer@uct.ac.za or Ross.Hofmeyr@uct.ac.za
